

Instructions for Virtual Zoom Workshops

Before the workshop:

- Please download zoom and test it out with a friend! **You need to make an account ahead of time- it is free. Once you have this, then sign in for the class, click on the link and use passcode that was sent to you in your confirmation email when you registered.**
- <https://zoom.us/>
- It's easiest to use on a desktop or lap top computer but you can also use your phone or ipad.

How it will work:

- We (the host and the instructor) will sign on about 10 minutes prior to the meeting to say hello and make sure everyone has time to get settled and troubleshoot technical issues.
- Once we start, we will mute all your microphones so that it's easier for the instructor to communicate. We will use the **'Chat'** feature to field your questions while the demo is underway. The host will read the Chat questions to the instructor as we go along. There will be more time in the second hour to voice your questions directly.
- This demonstration will largely focus on technique, the 'how' of the work, with some discussion about the 'why' of the work.
- We will take a 10 minute break about half way through the demo.
- The second hour of this workshop is optional "studio time" with the instructor and class mates.
- During studio time there will be opportunity to interact with the instructor, show & tell, ask for clarification, maybe an extra little demo, you name it. This is the time to socialize a bit as well.
- Hold down your space bar to temporarily unmute yourself during "studio time".

Other Considerations:

- Art material is NOT required to attend this workshop. Some may find it more valuable to watch and take notes. Sometimes questions come up once you try the technique and so it could be fun to work along side one another. It's up to you!
- Art processes can be frustrating at first. You too will find your way with a little practice and patience. This is going to be fun!
- Zoom workshops are new to us too! Please be patient if we hit any snags.
